Fish-Eye

Made in Japan

Applicable camera (model)

*Photograph is a similar model.

- High-resolution design, providing support for up to **5 megapixel** camera resolution.
- Super wide angle of 185 degrees that eliminates dead angles and enables effective, wide-area surveillance.
- Designed with the f-theta system, most suited for uniform displaying of images. Allows high-quality image display, partial enlargement, and conversion to ordinary-looking images to be performed easily with imaging software.
